Profile

Product Designer who goes deep on **research** to understand the real problem behind each role, then designs the solution in **Figma** and builds it with **HTML, CSS, JavaScript and React** — using vibe coding to ship complete, working apps.

Education

Mastery UX/UI Designing

Web D Schools · Jun 2024 – Jan 2025

B.Com — Bachelor of Commerce

University of Madras · Jun 2021 – May 2024

Experience

- **Facilio** — Product Designer Current Chennai · 2025 – Present
 - Designed and built **Support Desk** — support ticket web app and chat assistant.
 - Designed **Atom AI** — Facilio's gallery of AI apps and assistants for FM.
 - Build Figma designs in React and ship complete apps with vibe coding.
 - Own FM dashboards and Figma component libraries; partner with developers on hand-off.
- **Amvion Labs Pvt Ltd** — UI + Graphic Design Intern
 - Web app UI, dashboards and reusable Figma components.
- **T-Eurasia Business Communication** — Creative Designer
 - Website redesign, TEB School platform, brand and social assets.

Projects

Support Desk · Facilio · Lead project

Support mails were getting missed with no clear owner. Designed and developed a responsive web app (desktop and mobile) that pulls every mail into one ticket queue, assigns an owner, lets the team reply in place and flags repeat-issue customers, with a chat assistant in Microsoft Teams.

Atom AI · Facilio

Gallery of AI apps and assistants for FM work. Designed the gallery, assistant experience and the controls to manage usage and access per app.

Clickly — Social Media Management Web App · Personal

One dashboard for every social platform — designed and built as a web app.
